Mannheimer Swartling among the worlds best

The British magazine, Global Arbitration Review (GAR) recently published "A guide to Specialist Arbitration Firms", where Mannheimer Swartling is ranked in seventh place and is thus behind only a few of the world's largest firms.

The report contains a presentation of 100 law firms with specialist knowledge and capacity within the field of international arbitration. Out of the 100 firms, the 30 most prominent law firms were selected. Mannheimer Swartling is with its seventh place the only Nordic law firm in the top 30.

"We are very proud of this ranking. The result of the survey inspires us to continue our forceful efforts within international arbitration, says Kaj Hobér, partner at Mannheimer Swartling Litigation and Arbitration.
